

PEDRO JAVIER GUTIERREZ ARMAS

Senior Database Administrator | SQL Server | Snowflake | Data Warehousing

San Jose, Costa Rica | +506 6351-5860 | pj13eros@hotmail.com | linkedin.com/in/pedrogutierrez13

PROFESSIONAL SUMMARY

Senior Database Administrator, SQL Developer, and Data Engineer with 15+ years of experience designing, administering, optimizing, and supporting Microsoft SQL Server data solutions, production databases, ETL pipelines, and enterprise data warehouses. Hands-on experience with advanced T-SQL, stored procedures, indexing, query tuning, database migrations, data integrity, Snowflake SQL, dbt, and warehouse performance optimization. Works independently across remote and cross-functional teams, communicates technical findings clearly, and uses AI-assisted tools including Cursor, Snowflake Cortex, and automated PR review workflows to improve SQL development, documentation, and quality.

TECHNICAL SKILLS

Area	Tools and Practices
Database Administration	Microsoft SQL Server, database design, production support, maintenance, migrations, security practices, data integrity
SQL Performance	T-SQL, complex queries, stored procedures, functions, views, indexing, query optimization, performance tuning, troubleshooting
Snowflake and Warehousing	Snowflake SQL, warehouse workload optimization, dbt, MetricFlow, Kimball modeling, silver and gold layers, dimensional modeling
Data Engineering	ETL/ELT pipelines, SSIS, SSAS, SSRS, data integration, data quality, validation, Power BI, Python, PowerShell
Cloud and AI Tools	Azure-based environments, Snowflake Cortex, Cursor, AI-assisted PR review, Git-based collaborative workflows

PROFESSIONAL EXPERIENCE

Snowflake Developer / Data Engineer | ServiceTitan

September 2024 - Present | Remote / Costa Rica

- Develop and maintain Snowflake SQL and dbt models that transform reporting logic into scalable, reusable analytical assets.
- Optimize Snowflake and dbt workloads, reducing data warehouse processing time by 20% during an initial performance improvement phase.
- Created a Kimball-based data warehouse modeling proof of concept to improve structure, query behavior, reuse, and processing performance.
- Build and support silver and gold data layers, improving model organization, reliability, and downstream analytics consumption.
- Support MetricFlow semantic-layer development and Snowflake Cortex use cases for metric consistency and AI-enabled analytics workflows.

Technologies: Snowflake, Snowflake SQL, Snowflake Cortex, dbt, MetricFlow, Kimball, SQL, Cursor, AI-assisted PR review bot

Data Engineer | SMASH Costa Rica

May 2021 - September 2024 | San Jose, Costa Rica

- Built and maintained production data workflows across SQL Server, SSIS, Snowflake, Python, PowerShell, Power BI, and Excel.
- Designed ETL applications for client requirements, reducing manual data processing time by up to 40%.
- Prepared, transformed, modeled, and validated data for reporting, analytics, and operational decision-making.
- Developed automated anomaly detection and validation tools that improved data validation accuracy by 30%.

Technologies: SQL Server, SSIS, Snowflake, Python, PowerShell, Power BI, Pandas, NumPy, Excel

SQL Developer | Intertec International

February 2019 - April 2021 | San Jose, Costa Rica

- Developed and optimized advanced T-SQL queries, stored procedures, and database workflows supporting production business logic.
- Reduced query execution times by up to 50% through query tuning, indexing strategies, and performance analysis.
- Troubleshot database and data-integration issues and consolidated multiple source systems into analytics-ready datasets.
- Improved data accuracy by more than 25% through validation checks and error-handling mechanisms.

Technologies: SQL Server, T-SQL, SSIS, Salesforce, MySQL

DBA / SQL Developer | EL Tiempo

September 2020 - November 2020 | Colombia

- Led planning and execution of migration activities for 10 SQL Server databases while maintaining data integrity and operational continuity.
- Coordinated cross-functional validation, deployment timing, risk identification, and production transition activities.
- Supported SQL Server and Azure-based database and reporting components across migration workflows.

Technologies: SQL Server, SSIS, Azure, SSRS

DBA / SQL and BI Consultant | Gold Data Networks

January 2016 - February 2020 | Panama City, Panama

- Designed relational databases, schemas, tables, stored procedures, and supporting objects for operational applications and reporting.
- Improved application performance through custom database logic and maintainable backend data structures.
- Delivered end-to-end database, integration, and BI solutions aligned with business and infrastructure requirements.

Technologies: SQL Server, SSIS, SSRS, PostgreSQL, Power BI, Excel

Data Warehouse DBA | BAC Credomatic

November 2017 - January 2019 | San Jose, Costa Rica

- Developed and maintained ETL pipelines that loaded multiple source systems into an enterprise data warehouse.
- Designed and optimized tables, indexes, and views for reliable, high-performance analytical workloads.
- Supported large datasets and reporting needs by improving structures used for trend analysis and business decision-making.

Technologies: SQL Server, SSIS, SSAS, SSRS, Power BI, Azure

ADDITIONAL DATABASE EXPERIENCE

- Bosal, DBA and BI Consultant: designed the first stage of the main data warehouse, produced senior-management reports, and supported SQL Server, SSIS, Azure, MySQL, and Power BI solutions.
- Xetux Solutions, Database Manager: defined database management policies, improved performance and data security, and created a data lake for centralized sales reporting.
- ACH Cloud Services, SQL and BI Consultant: administered and developed SQL Server databases, created billing dashboards, and documented the data environment.
- EducaTablet, Microsoft SQL Server DBA: administered production databases, improved database process response times, and trained developers in database programming practices.
- VIGEOSOFT, Microsoft SQL Server DBA: modeled, designed, configured, and programmed OLTP databases for business applications.
- Optica Caroni, Developer Analyst: delivered SQL Server, SSIS, SSRS, .NET, and VB6 solutions supporting production workflows and management reporting.

EDUCATION AND CERTIFICATIONS

- Systems Analyst, Informatics - IUT Dr. Federico Rivero Palacio (2000 - 2004)
- English Certificate - Universidad Central de Venezuela / Microsoft (2013 - 2015)
- Analyzing and Visualizing Data with Power BI; Complete Data Science Training with Python for Data Analysis; Dataiku Core Designer; SQL Admin Part 1
