

PEDRO JAVIER GUTIERREZ ARMAS

Reporting Analyst | SQL, Power BI, Excel, ETL & Data Warehousing

San Jose, Costa Rica | +506 6351-5860 | pj13eros@hotmail.com | linkedin.com/in/pedrogutierrez13

PROFESSIONAL SUMMARY

Reporting Analyst, Data Engineer, and SQL Server specialist with 15+ years of experience building, maintaining, optimizing, and documenting reporting datasets, dashboards, SQL workflows, ETL/ELT pipelines, and data warehouse solutions. Strong hands-on experience with SQL Server, T-SQL, Power BI, Excel, SSIS, SSAS, SSRS, Snowflake, dbt, Python, PowerShell, PostgreSQL, MySQL, Salesforce integrations, validation checks, error handling, anomaly detection, and stakeholder-facing reporting. Experienced translating business requirements into reliable data outputs, analyzing trends in large datasets, and creating analytics-ready assets for operational decision-making.

TECHNICAL SKILLS

Reporting & Dashboards: Power BI, SSRS, SSAS, Excel, dashboard datasets, KPI-ready reporting, operational analysis, business presentations.

SQL & Data Extraction: SQL Server, T-SQL, Snowflake SQL, stored procedures, complex queries, multi-source data extraction, indexing, query optimization.

Data Engineering: ETL/ELT, SSIS, dbt, Snowflake, data pipelines, data transformation, data warehousing, data modeling, reporting reliability.

Analysis & Data Quality: Descriptive analysis, trend identification, validation checks, error handling, anomaly detection, data accuracy improvement.

Automation & Collaboration: Python, Pandas, NumPy, Matplotlib, PowerShell, requirements translation, stakeholder collaboration, documentation.

PROFESSIONAL EXPERIENCE

ServiceTitan - Snowflake Developer / Data Engineer | Sep 2024 - Present | Remote / Costa Rica

- Migrated reporting and business logic from C# processes into Snowflake SQL to support scalable reporting and analytics workflows.
- Created and maintained dbt silver and gold layer models, improving dataset organization, reusability, and downstream reporting reliability.
- Optimized Snowflake SQL and dbt workloads, reducing data warehouse processing time by approximately 20% in an initial optimization phase.
- Supported MetricFlow work by helping organize metrics across datasets, improving consistency and usability of analytical definitions.

SMASH Costa Rica - Data Engineer | May 2021 - Sep 2024

- Designed customized ETL applications and data workflows using SQL Server, SSIS, Python, PowerShell, Snowflake, Power BI, and Excel, reducing manual processing time by up to 40%.
- Prepared, cleaned, transformed, and modeled datasets for business reporting, Power BI dashboards, and operational decision-making.
- Developed automated exploratory data analysis and validation tools with Pandas, NumPy, and Matplotlib to detect anomalies and improve validation accuracy by 30%.
- Translated stakeholder reporting needs into structured datasets, repeatable transformations, and Power BI-ready reporting outputs.

Intertec International - SQL Developer | Feb 2019 - Apr 2021

- Developed and optimized stored procedures, SQL queries, and database workflows supporting complex business logic and analytics needs.
- Consolidated multiple disparate data sources, including SQL Server, SSIS, Salesforce, and MySQL, into analytics-ready datasets.
- Improved data accuracy by more than 25% through validation checks and error-handling mechanisms across key workflows.
- Reduced query execution times by up to 50% through SQL optimization, indexing strategies, and performance tuning.

EL Tiempo - DBA / SQL Developer | Sep 2020 - Nov 2020

- Supported migration projects for 10 databases, coordinating validation, data integrity checks, risk identification, and continuity activities.
- Worked with SQL Server, SSIS, Azure, and SSRS to preserve reporting availability during deployment activities.

Gold Data Networks - DBA / SQL & BI Consultant | Jan 2016 - Feb 2020

- Built relational databases, table structures, custom database objects, and stored procedures for scalable backend and reporting workloads.
- Designed and implemented end-to-end data solutions integrated with existing infrastructure and BI/reporting needs.
- Delivered SQL Server, SSIS, SSRS, PostgreSQL, Power BI, and Excel solutions for operational reporting and business analysis.

BAC Credomatic - Data Warehouse DBA | Nov 2017 - Jan 2019

- Developed and maintained ETL pipelines to extract, transform, and load data from multiple sources into the data warehouse.
- Defined and optimized table, index, and view structures for high-performance analytical workloads.
- Improved operational efficiency by identifying trends and hidden patterns in large datasets for data-driven decision-making.

ADDITIONAL EXPERIENCE

Bosal, Xetux, ACH, EducaTablet, VIGEOSOFT, Optica Caroni - Database / BI / SQL Roles | *Earlier Experience*

- Created dashboards, reports, and presentations for management, billing, sales, production, and business control processes.
- Administered and developed databases and reporting workflows using SQL Server, SSIS, SSRS, Azure, MySQL, .NET, VB6, and related Microsoft technologies.
- Documented data environments, shared database improvement practices, and supported business users with reporting delivery.

EDUCATION & CERTIFICATIONS

- Systems Analyst, Informatics - IUT Dr. Federico Rivero Palacio.
- Analyzing and Visualizing Data with Power BI.
- Complete Data Science Training with Python for Data Analysis.
- R Programming A-Z: R for Data Science.
- Dataiku Core Designer.
- SQL Admin Part 1.
- English Certificate.

LANGUAGES

Spanish: Native | English: Full professional proficiency
