

PEDRO JAVIER GUTIERREZ ARMAS

SQL Server DBA | Regular Patching | Azure SQL Managed Instance / Azure SQL Database | Backup & Recovery

San Jose, Costa Rica | +506 6351-5860 | pj13eros@hotmail.com | linkedin.com/in/pedrogutierrez13

PROFESSIONAL SUMMARY

SQL Server & Azure DBA, SQL Developer, and Data Engineer with 15+ years of experience administering, upgrading, patching, configuring, optimizing, troubleshooting, and maintaining SQL Server and Azure database environments. Hands-on background with on-premises SQL Server, Azure SQL Managed Instance, Azure SQL Database, SQL Server version upgrade planning/execution, patching cycles, backup schedules, recovery procedures, runbook documentation, performance monitoring, query/index tuning, SSIS, SSRS, SSAS, Power BI, PowerShell, Python, Azure-based environments, PostgreSQL, MySQL, Snowflake SQL, and ETL/data migration work. Experienced operating autonomously in lean teams, supporting after-hours maintenance windows, communicating clearly in English, and preserving availability, integrity, and responsiveness across production database workloads.

CORE SKILLS

SQL Server DBA: on-prem SQL Server administration, version upgrade planning/execution, patching cycles, configuration maintenance, database integrity, operational continuity.

Azure DBA: Azure SQL Managed Instance, Azure SQL Database, Azure-based environments, cloud database configuration, maintenance, monitoring, and migration support.

Backup / Recovery / Runbooks: backup schedules, recovery procedures, operational runbooks, configuration documentation, maintenance windows, continuity planning.

Performance & Monitoring: proactive performance monitoring, query tuning, index tuning, configuration tuning, bottleneck analysis, high-availability responsiveness.

SQL Development & ETL: T-SQL, stored procedures, complex queries, SSIS, SSRS, SSAS, ETL pipelines, data warehousing, table/view structures, data migration.

Automation & Communication: PowerShell, Python, documentation, stakeholder communication, cross-functional support, autonomous execution, after-hours support.

PROFESSIONAL EXPERIENCE

EL Tiempo - DBA / SQL Developer | September 2020 - November 2020 | Colombia

- Planned and executed SQL Server version upgrade and migration activities for 10 databases, including assessment, sequencing, validation, cutover support, and continuity planning.
- Administered SQL Server and Azure SQL Managed Instance / Azure SQL Database environments, supporting configuration, maintenance, regular patching windows, and operational stability.
- Designed and documented backup schedules, recovery procedures, restore readiness practices, and operational runbooks to support database continuity.
- Diagnosed migration and performance risks, validated data integrity, and coordinated with cross-functional teams to maintain availability during deployment activities.

Gold Data Networks - DBA / SQL & BI Consultant | January 2016 - February 2020 | Panama City, Panama

- Administered distributed SQL Server environments, including configuration maintenance, regular patching coordination, performance monitoring, and operational support.
- Built relational databases, table structures, custom database objects, and stored procedures for scalable backend and reporting workloads.
- Implemented backup and recovery procedures, documented database configurations, and maintained runbooks for recurring DBA operations and recovery scenarios.
- Tuned SQL queries, indexes, and database objects to improve application performance and support reliable reporting workloads.

BAC Credomatic - Data Warehouse DBA | November 2017 - January 2019 | San Jose, Costa Rica

- Maintained SQL Server Data Warehouse environments and ETL pipelines that loaded data from multiple sources into analytical structures.
- Defined and optimized table, index, and view structures for high-performance analytical workloads and responsive reporting.
- Supported SQL Server, SSIS, SSAS, SSRS, Power BI, Azure SQL Database / Azure-based reporting environments, including monitoring and performance improvement.
- Documented DWH structures, data flows, and operational practices to support stable production reporting and support handoffs.

Intertec International - SQL Developer | February 2019 - April 2021 | San Jose, Costa Rica

- Developed, reviewed, and optimized stored procedures, SQL queries, and database workflows using SQL Server/T-SQL to support complex business logic and analytics needs.
- Reduced query execution times by up to 50% through SQL optimization, indexing strategies, execution logic review, and performance tuning.
- Improved data accuracy by over 25% through validation checks, error-handling mechanisms, and repeatable database workflow controls.
- Supported ETL consolidation from multiple sources, including Salesforce and MySQL, into analytics-ready datasets using optimized processes.

SMASH Costa Rica - Data Engineer | May 2021 - September 2024 | San Jose, Costa Rica

- Built and maintained data workflows using SQL Server, SSIS, Python, PowerShell, Snowflake, Power BI, and Excel.
- Designed customized ETL applications tailored to client requirements, reducing manual processing time by up to 40%.
- Developed automated exploratory data analysis and validation tools with Pandas, NumPy, and Matplotlib to detect anomalies and improve validation accuracy by 30%.
- Prepared, cleaned, transformed, and modeled datasets for reporting, dashboards, operational analysis, and decision-making.

ServiceTitan - Snowflake Developer / Data Engineer | September 2024 - Present | Remote / Costa Rica

- Migrates C# reporting logic into Snowflake SQL to support scalable reporting and analytics workflows in a fully remote environment.
- Creates and maintains dbt models within silver and gold data layers, improving model organization, reliability, and downstream reporting.
- Optimizes Snowflake SQL and dbt workloads, reducing Data Warehouse processing time by approximately 20% in an initial optimization phase.
- Supports MetricFlow semantic layer work with Snowflake Cortex to improve consistency of analytical definitions.

ADDITIONAL DBA EXPERIENCE

Xetux Solutions - Database Manager | *August 2016 - October 2017* | *Caracas, Venezuela*

- Defined database management policies and improved performance and data security across business areas.
- Created a data lake to consolidate sales data and support centralized reporting and analysis.

ACH Cloud Services - SQL and BI Consultant | *August 2015 - August 2016* | *Caracas, Venezuela*

- Administered and developed company databases supporting operational and reporting workflows.
- Created dashboards and reports for customer billing management and documented the company's data environment.

EducaTablet - Microsoft SQL Server DBA | *February 2015 - August 2015* | *Caracas, Venezuela*

- Administered and developed company databases and improved response times for database processes.
- Trained development teams on database programming good practices.

VIGEOSOFT - Microsoft SQL Server DBA | *August 2014 - January 2015* | *Caracas, Venezuela*

- Modeled, designed, configured, and programmed OLTP databases for business applications.
- Documented process and structure changes through data dictionary practices and stakeholder coordination.

Optica Caroni C.A. - Developer Analyst | *September 2005 - May 2014* | *Caracas, Venezuela*

- Adjusted application and database processes to maximize production and created management reports and dashboards.
- Implemented production-related workflow projects using SQL Server, SSIS, SSRS, .NET, and VB6.

EDUCATION & CERTIFICATIONS

- Systems Analyst, Informatics - IUT Dr. Federico Rivero Palacio.
- English Certificate - Universidad Central de Venezuela / Microsoft.
- SQL Admin Part 1.
- Analyzing and Visualizing Data with Power BI.
- Complete Data Science Training with Python for Data Analysis.
- R Programming A-Z: R for Data Science.
- Dataiku Core Designer.
