

PEDRO JAVIER GUTIERREZ ARMAS

Analytics Engineer | EDW Data Modeling, Snowflake, dbt, SQL, ELT & Data Quality

San Jose, Costa Rica | +506 6351-5860 | pj13eros@hotmail.com | linkedin.com/in/pedrogutierrez13

PROFESSIONAL SUMMARY

Analytics Engineer, Snowflake Developer, and Data Engineer with 15+ years of experience designing, building, optimizing, and maintaining Enterprise Data Warehouse, BI, reporting, and analytics data solutions. Hands-on experience with Snowflake SQL, dbt models, silver and gold layers, SQL Server, T-SQL, SSIS, SSAS, SSRS, Power BI, Python, PowerShell, PostgreSQL, MySQL, Salesforce integrations, Excel, and Azure-based environments. Experienced transforming raw data into trusted, reusable data assets, building dimensional models, improving warehouse performance, validating data quality, documenting logic, and partnering with stakeholders to deliver reliable self-service analytics datasets.

CORE SKILLS

Analytics Engineering: EDW modeling, reusable analytics datasets, dimensional modeling, Kimball practices, silver/gold layers, metric definition support.

Snowflake & dbt: Snowflake SQL, dbt models, performance optimization, warehouse processing efficiency, MetricFlow support.

SQL & Data Modeling: SQL Server, T-SQL, stored procedures, complex queries, indexing, query optimization, PostgreSQL, MySQL.

ELT / ETL & Pipelines: SSIS, data pipelines, data transformation, data warehousing, multi-source integration, Salesforce integrations.

Data Quality & Reliability: validation checks, error handling, anomaly detection, data integrity, data dictionaries, process documentation.

BI & Stakeholder Delivery: Power BI, SSRS, SSAS, Excel, requirements translation, dashboards, reporting datasets, actionable insights.

Automation & Analysis: Python, Pandas, NumPy, Matplotlib, PowerShell, exploratory analysis, automated validation workflows.

PROFESSIONAL EXPERIENCE

ServiceTitan - Snowflake Developer / Data Engineer | September 2024 - Present | Remote / Costa Rica

- Migrates C# reporting logic into Snowflake SQL to support scalable, maintainable reporting and analytics workflows.
- Creates and maintains dbt models within silver and gold data layers, improving model organization, reusability, and downstream reporting reliability.
- Optimizes Snowflake SQL and dbt workloads, reducing Data Warehouse processing time by approximately 20% in an initial optimization phase.
- Created a proof of concept for a new Data Warehouse model using Kimball methodology and best practices to define modeling standards and improve query and processing performance.
- Supports dbt MetricFlow work by helping create and organize metrics for different datasets, improving consistency and usability of analytical definitions.

SMASH Costa Rica - Data Engineer | May 2021 - September 2024 | San Jose, Costa Rica

- Designed and implemented customized ETL applications tailored to client requirements, reducing manual processing time by up to 40%.
- Built and maintained data workflows using SQL Server, SSIS, Python, PowerShell, Snowflake, Power BI, and Excel.
- Prepared, cleaned, transformed, and modeled datasets for business reporting, Power BI dashboards, and operational decision-making.
- Developed automated exploratory data analysis and validation tools with Pandas, NumPy, and Matplotlib to detect anomalies and improve validation accuracy by 30%.

Intertec International - SQL Developer | February 2019 - April 2021 | San Jose, Costa Rica

- Developed and optimized stored procedures, SQL queries, and database workflows supporting complex business logic and analytics needs.
- Consolidated multiple disparate data sources, including Salesforce and MySQL sources, into analytics-ready datasets through optimized ETL processes.
- Improved data accuracy by over 25% through validation checks and error-handling mechanisms across key workflows.
- Reduced query execution times by up to 50% through SQL optimization, indexing strategies, and performance tuning.

EL Tiempo - DBA / SQL Developer | September 2020 - November 2020 | Colombia

- Supported migration projects for 10 databases, coordinating validation, data integrity checks, risk identification, and continuity of operations.
- Worked with SQL Server, SSIS, Azure, and SSRS to preserve reporting availability during migration and deployment activities.

Gold Data Networks - DBA / SQL & BI Consultant | January 2016 - February 2020 | Panama City, Panama

- Built relational databases, table structures, custom objects, and stored procedures to support scalable reporting workloads and backend processes.
- Designed and implemented end-to-end data solutions integrated with existing infrastructure and BI/reporting needs.
- Delivered reporting and analysis solutions using SQL Server, SSIS, SSRS, PostgreSQL, Power BI, and Excel.

BAC Credomatic - Data Warehouse DBA | November 2017 - January 2019 | San Jose, Costa Rica

- Developed and maintained ETL pipelines to extract, transform, and load data from multiple sources into the Data Warehouse.
- Defined and optimized table, index, and view structures for high-performance analytical workloads.
- Improved operational efficiency by identifying trends and hidden patterns in large datasets for data-driven decision-making.
- Supported SSAS, Power BI, SSRS, and Azure-based reporting environments for analytics at scale.

ADDITIONAL EXPERIENCE

Bosal - DBA and BI Consultant | *March 2017 - March 2018* | *Lummen, Belgium*

- Designed the first stage of the company's main Data Warehouse and generated reports and presentations for senior management.
- Shared database improvement practices with development teams and supported BI/reporting delivery.

Xetux Solutions - Database Manager | *August 2016 - October 2017* | *Caracas, Venezuela*

- Defined database management policies and improved performance and data security across business areas.
- Created a data lake to consolidate sales data and support centralized reporting and analysis.

ACH Cloud Services, EducaTablet, VIGEOSOFT, Optica Caroni - SQL and BI Consultant / DBA / Developer Analyst | *Previous Experience*

- Administered and developed databases supporting operational and reporting workflows.
- Created dashboards, management reports, billing reports, documentation, data dictionaries, and process improvements.
- Implemented application and database process adjustments to improve production-related workflows.

EDUCATION & CERTIFICATIONS

- Systems Analyst, Informatics - IUT Dr. Federico Rivero Palacio.
- English Certificate - Universidad Central de Venezuela / Microsoft.
- Analyzing and Visualizing Data with Power BI.
- Complete Data Science Training with Python for Data Analysis.
- R Programming A-Z: R for Data Science.
- Dataiku Core Designer.
- SQL Admin Part 1.
