

PEDRO JAVIER GUTIERREZ ARMAS

SQL Developer | AI Training Data, Advanced SQL, Stored Procedures, Data Modeling & Documentation

San Jose, Costa Rica | +506 6351-5860 | pj13eros@hotmail.com | linkedin.com/in/pedrogutierrez13

PROFESSIONAL SUMMARY

SQL Developer, Data Engineer, and SQL Server specialist with 15+ years of experience designing, developing, optimizing, troubleshooting, validating, and documenting database solutions across SQL Server, Snowflake SQL, PostgreSQL, MySQL, ETL/ELT, BI, reporting, and data warehousing. Strong hands-on background in advanced SQL, stored procedures, relational modeling, normalization, query tuning, indexing, data quality, and technical documentation. Current experience with AI-assisted analytics workflows, including Snowflake Cortex, MetricFlow semantic layer support, Cursor, and AI-assisted PR review bots. Skilled at translating business and technical requirements into reliable data assets, explaining database logic clearly, and collaborating remotely with cross-functional teams.

CORE SKILLS

Advanced SQL Development: SQL Server, T-SQL, Snowflake SQL, PostgreSQL, MySQL, stored procedures, complex queries, joins, aggregations, indexing, query optimization.

Data Modeling & Databases: relational design, normalization, table/view structures, database objects, dimensional modeling, DWH modeling, Kimball practices.

AI / ML Data Workflows: Snowflake Cortex, MetricFlow semantic layer support, AI-assisted SQL development, Cursor, AI-assisted PR review bot, AI-ready analytical definitions.

Data Engineering: ETL/ELT, SSIS, dbt, data pipelines, data transformation, data warehousing, Salesforce integrations, analytics-ready datasets.

Quality & Troubleshooting: validation checks, error handling, anomaly detection, data integrity, performance tuning, root-cause analysis, repeatable QA workflows.

Documentation & Communication: technical documentation, data dictionaries, process documentation, stakeholder communication, user-facing explanations, remote collaboration.

Automation & Analysis: Python, Pandas, NumPy, Matplotlib, PowerShell, automated validation, exploratory data analysis.

PROFESSIONAL EXPERIENCE

ServiceTitan - Snowflake Developer / Data Engineer | September 2024 - Present | Remote / Costa Rica

- Migrates C# reporting logic into Snowflake SQL to support scalable, maintainable reporting and analytics workflows.
- Creates and maintains dbt models within silver and gold data layers, improving model organization, reusability, and downstream reporting reliability.
- Supports the development of the MetricFlow semantic layer, using Snowflake Cortex over the last 6 months to support AI-enabled analytics workflows, metric organization, and consistent analytical definitions.
- Uses AI-assisted development tools such as Cursor and an AI bot for Git PR review to accelerate SQL development, review, debugging, and documentation workflows.
- Optimizes Snowflake SQL and dbt workloads, reducing Data Warehouse processing time by approximately 20% in an initial optimization phase.
- Created a proof of concept for a new Data Warehouse model using Kimball methodology and best practices to define modeling standards and improve query and processing performance.

Intertec International - SQL Developer | February 2019 - April 2021 | San Jose, Costa Rica

- Developed and optimized stored procedures, SQL queries, and database workflows supporting complex business logic and analytics needs.
- Consolidated multiple disparate data sources, including Salesforce and MySQL sources, into analytics-ready datasets using optimized ETL processes.
- Improved data accuracy by over 25% through validation checks and error-handling mechanisms across key workflows.
- Reduced query execution times by up to 50% through SQL optimization, indexing strategies, and performance tuning.

SMASH Costa Rica - Data Engineer | May 2021 - September 2024 | San Jose, Costa Rica

- Designed and implemented customized ETL applications tailored to client requirements, reducing manual processing time by up to 40%.
- Built and maintained data workflows using SQL Server, SSIS, Python, PowerShell, Snowflake, Power BI, and Excel.
- Developed automated exploratory data analysis and validation tools with Pandas, NumPy, and Matplotlib to detect anomalies, improve validation accuracy by 30%, and accelerate reporting workflows.
- Prepared, cleaned, transformed, and modeled datasets for business reporting, Power BI dashboards, and operational decision-making.

EL Tiempo - DBA / SQL Developer | September 2020 - November 2020 | Colombia

- Supported migration projects for 10 databases, coordinating validation, data integrity checks, risk identification, and continuity of operations.
- Worked with cross-functional teams to identify migration risks, validate data, and maintain database integrity during deployment activities.
- Worked with SQL Server, SSIS, Azure, and SSRS to preserve reporting availability and continuity.

Gold Data Networks - DBA / SQL & BI Consultant | January 2016 - February 2020 | Panama City, Panama

- Built relational databases, table structures, custom objects, and stored procedures to support reporting workloads and backend processes.
- Developed custom database objects and stored procedures to improve application performance and support scalable backend processes.
- Designed and implemented end-to-end data solutions integrated with existing infrastructure and BI/reporting needs.

BAC Credomatic - Data Warehouse DBA | November 2017 - January 2019 | San Jose, Costa Rica

- Developed and maintained ETL pipelines to extract, transform, and load data from multiple sources into the Data Warehouse.
- Defined and optimized table, index, and view structures for high-performance analytical workloads.
- Identified trends and hidden patterns in large datasets to support data-driven decision-making.
- Supported SSAS, Power BI, SSRS, and Azure-based reporting environments for analytics at scale.

ADDITIONAL SQL, DATABASE & DOCUMENTATION EXPERIENCE

Bosal - DBA and BI Consultant | *March 2017 - March 2018* | *Lummen, Belgium*

- Designed the first stage of the company's main Data Warehouse and generated reports and presentations for senior management.
- Supported BI/reporting delivery and shared database improvement practices with development teams.

Xetux Solutions - Database Manager | *August 2016 - October 2017* | *Caracas, Venezuela*

- Defined database management policies and improved performance and data security across business areas.
- Created a data lake to consolidate sales data and support centralized reporting and analysis.

ACH Cloud Services - SQL and BI Consultant | *August 2015 - August 2016* | *Caracas, Venezuela*

- Administered and developed company databases supporting operational and reporting workflows.
- Created dashboards and reports for customer billing management and documented the company's data environment.

EducaTablet, VIGEOSOFT, Optica Caroni - Microsoft SQL Server DBA / Developer Analyst | *Previous Experience* | *Caracas, Venezuela*

- Administered, modeled, designed, configured, and programmed SQL Server databases for business applications and reporting.
- Documented process and structure changes through data dictionary practices and stakeholder coordination.
- Adjusted application and database processes to improve production workflows and management reporting.

EDUCATION & CERTIFICATIONS

- Systems Analyst, Informatics - IUT Dr. Federico Rivero Palacio.
- English Certificate - Universidad Central de Venezuela / Microsoft.
- SQL Admin Part 1.
- Analyzing and Visualizing Data with Power BI.
- Complete Data Science Training with Python for Data Analysis.
- R Programming A-Z: R for Data Science.
- Dataiku Core Designer.
