

PEDRO JAVIER GUTIERREZ ARMAS

Database Migration Leader | SQL Server, Azure and Data Platforms

San Jose, Costa Rica | +506 6351-5860 | pj13eros@hotmail.com | linkedin.com/in/pedrogutierrez13

PROFESSIONAL SUMMARY

Database administrator, SQL developer, and data engineer with 15+ years of experience delivering enterprise database, migration, integration, and data warehouse solutions. Led the planning and execution of a ten-database SQL Server migration, coordinating risk identification, data validation, integrity, deployment activities, and operational continuity. Deep experience with SQL Server and T-SQL, plus hands-on work with MySQL, PostgreSQL, Snowflake, Azure-based environments, Python, and PowerShell. Proven in query and workload tuning, technical documentation, database policies, stakeholder coordination, and AI-assisted engineering workflows.

CORE EXPERTISE

Database migration: Migration planning and execution, risk identification, data validation, reconciliation support, integrity, deployment coordination, and operational continuity.

Database platforms: Microsoft SQL Server, MySQL, PostgreSQL, Snowflake; schemas, tables, views, indexes, stored procedures, and relational modeling.

Performance: Advanced T-SQL, query tuning, indexing strategies, workload optimization, troubleshooting, and post-change validation.

Automation and data engineering: Python, PowerShell, SSIS, ETL/ELT, dbt, data quality controls, and repeatable processing workflows.

Leadership and AI: Technical coordination, risk communication, documentation, database policies, developer training, Cursor, Snowflake Cortex, and AI-assisted PR review.

PROFESSIONAL EXPERIENCE

Snowflake Developer / Data Engineer | ServiceTitan

Sep 2024 - Present | Remote / Costa Rica

- Migrate C# reporting logic into Snowflake SQL and maintain dbt models across silver and gold data layers.
- Optimize Snowflake SQL and dbt workloads, reducing data warehouse processing time by 20% during an initial improvement phase.
- Created a Kimball-based warehouse modeling proof of concept and support MetricFlow semantic-layer and Snowflake Cortex workflows.

Technologies: Snowflake, Snowflake SQL, dbt, MetricFlow, Kimball, Snowflake Cortex, Cursor, Git

Data Engineer | SMASH Costa Rica

May 2021 - Sep 2024 | San Jose, Costa Rica

- Designed production ETL applications and data workflows across SQL Server, SSIS, Snowflake, Python, and PowerShell, reducing manual processing by up to 40%.
- Automated data validation and anomaly detection, improving validation accuracy by 30% and strengthening production data quality.

Technologies: SQL Server, SSIS, Snowflake, Python, PowerShell, Power BI, Pandas

SQL Developer | Intertec International

Feb 2019 - Apr 2021 | San Jose, Costa Rica

- Developed and optimized advanced SQL queries, stored procedures, and data workflows across SQL Server, Salesforce, and MySQL.
- Reduced query execution times by up to 50% and improved data accuracy by more than 25% through tuning, indexing, validation, and error handling.

Technologies: SQL Server, T-SQL, SSIS, Salesforce, MySQL

DBA / SQL Developer | EL Tiempo

Sep 2020 - Nov 2020 | Colombia

- Led planning and execution of migration activities for ten SQL Server databases, delivering all phases on time and within scope.
- Coordinated with cross-functional teams to identify migration risks, validate data, preserve integrity, and maintain operational continuity.
- Supported multi-platform migration and reporting components throughout deployment activities.

Technologies: SQL Server, SSIS, Azure, SSRS

DBA / SQL and BI Consultant | Gold Data Networks

Jan 2016 - Feb 2020 | Panama City, Panama

- Designed relational databases, schemas, tables, stored procedures, and supporting objects for operational and reporting workloads.
- Delivered end-to-end database, integration, and BI solutions aligned with business and infrastructure requirements.

Technologies: SQL Server, SSIS, SSRS, PostgreSQL, Power BI, Excel

Data Warehouse DBA | BAC Credomatic

Nov 2017 - Jan 2019 | San Jose, Costa Rica

- Developed and maintained ETL pipelines that loaded multiple source systems into the enterprise data warehouse.
- Designed and optimized tables, indexes, and views for reliable, high-performance analytical workloads.

Technologies: SQL Server, SSIS, SSAS, SSRS, Power BI, Azure

ADDITIONAL LEADERSHIP AND DATABASE EXPERIENCE

- Xetux Solutions, Database Manager: defined database management policies, improved performance and data security, and created a centralized sales data lake.
- EducaTablet, SQL Server DBA: administered enterprise databases, improved response times, and trained development teams in database programming practices.
- VIGEOSOFT, SQL Server DBA: modeled, designed, configured, and programmed OLTP databases and documented structural changes.
- Bosal and ACH Cloud Services: designed warehouse components, administered databases, created management reports, and documented data environments.

EDUCATION AND LANGUAGES

Systems Analyst, Informatics - IUT Dr. Federico Rivero Palacio (2000-2004).

Additional training: SQL Admin Part 1; Analyzing and Visualizing Data with Power BI; Python for Data Analysis.

Spanish: Native | English: Full professional proficiency.
