

PEDRO JAVIER GUTIERREZ ARMAS

BI Report Developer | SQL Developer | SQL Server, Stored Procedures, SSRS & Power BI

San Jose, Costa Rica | +506 6351-5860 | pj13eros@hotmail.com | linkedin.com/in/pedroguierrez13

PROFESSIONAL SUMMARY

BI Report Developer, SQL Developer, and Data Engineer with 15+ years of experience translating business requirements into SQL-based database solutions, reporting datasets, dashboards, stored procedures, database objects, ETL workflows, and analytics-ready assets. Strong hands-on experience with SQL Server, T-SQL, SSIS, SSAS, SSRS, Power BI, Excel, Snowflake SQL, dbt, PostgreSQL, MySQL, Azure-based environments, Python, PowerShell, validation checks, error handling, data dictionaries, and process documentation. Experienced collaborating with business stakeholders and technical teams to deliver accurate, maintainable reporting solutions for operational decision-making.

TECHNICAL SKILLS

SQL Development: SQL Server, T-SQL, stored procedures, functions, complex queries, joins, database objects, views, query optimization, indexing.

BI Reporting: SSRS, Power BI, SSAS, Excel, client-facing reporting datasets, dashboards, operational reporting, business presentations.

Database Platforms: SQL Server, Snowflake SQL, PostgreSQL, MySQL, Azure-based environments, data warehouse databases.

ETL & Data Quality: SSIS, ETL/ELT pipelines, data transformation, validation checks, error handling, anomaly detection, data integrity, reporting reliability.

Delivery & Documentation: Requirements translation, stakeholder collaboration, technical documentation, data dictionaries, process documentation, cross-functional delivery.

PROFESSIONAL EXPERIENCE

ServiceTitan - Snowflake Developer / Data Engineer | Sep 2024 - Present | Remote / Costa Rica

- Migrated reporting and business logic from C# processes into Snowflake SQL to support scalable reporting and analytics workflows.
- Create and maintain dbt models within silver and gold data layers, improving model organization, reusability, and downstream reporting reliability.
- Optimize Snowflake SQL and dbt workloads, reducing data warehouse processing time by approximately 20% in an initial optimization phase.
- Support MetricFlow work by helping create and organize metrics across datasets, improving consistency and usability of analytical definitions.

SMASH Costa Rica - Data Engineer | May 2021 - Sep 2024

- Designed and implemented customized ETL applications tailored to client requirements, reducing manual processing time by up to 40%.
- Built and maintained data workflows using SQL Server, SSIS, Python, PowerShell, Snowflake, Power BI, and Excel.
- Prepared, cleaned, transformed, and modeled datasets for business reporting, Power BI dashboards, and operational decision-making.
- Developed automated exploratory data analysis and validation tools using Pandas, NumPy, and Matplotlib to detect anomalies and improve validation accuracy by 30%.

Intertec International - SQL Developer | Feb 2019 - Apr 2021

- Developed and optimized stored procedures, SQL queries, and database workflows supporting complex business logic and analytics needs.
- Consolidated multiple disparate data sources into analytics-ready datasets using optimized ETL processes.
- Improved data accuracy by more than 25% through validation checks and error-handling mechanisms across key workflows.
- Reduced query execution times by up to 50% through SQL optimization, indexing strategies, and performance tuning.

EL Tiempo - DBA / SQL Developer | Sep 2020 - Nov 2020

- Supported migration projects for 10 databases, coordinating validation, data integrity checks, risk identification, and continuity activities.
- Worked with SQL Server, SSIS, Azure, and SSRS to preserve reporting availability during multi-platform migration and deployment activities.

Gold Data Networks - DBA / SQL & BI Consultant | Jan 2016 - Feb 2020

- Built relational databases, table structures, custom database objects, and stored procedures from scratch for scalable backend and reporting workloads.
- Designed and implemented end-to-end data solutions integrated with infrastructure and BI/reporting needs.
- Delivered SQL Server, SSIS, SSRS, PostgreSQL, Power BI, and Excel solutions for operational reporting and business analysis.

BAC Credomatic - Data Warehouse DBA | Nov 2017 - Jan 2019

- Developed and maintained ETL pipelines to extract, transform, and load data from multiple source systems into a data warehouse.
- Defined and optimized table, index, and view structures for high-performance analytical workloads.
- Supported SSAS, Power BI, SSRS, and Azure-based reporting environments for large-scale analytics and decision support.

ADDITIONAL EXPERIENCE

Bosal, Xetux, ACH, EducaTablet, VIGEOSOFT, Optica Caroni - Database / BI / SQL Roles | *Earlier Experience*

- Designed data warehouse stages, centralized reporting datasets, dashboards, reports, and business control processes using SQL Server, SSIS, SSRS, Azure, MySQL, Power BI, .NET, and VB6.
- Administered and developed databases supporting operational and reporting workflows, including billing, sales, production, and management reporting.
- Documented data environments with data dictionary practices, trained development teams on database programming practices, and supported BI/reporting delivery.

EDUCATION & CERTIFICATIONS

- Systems Analyst, Informatics - IUT Dr. Federico Rivero Palacio.
- SQL Admin Part 1.
- Analyzing and Visualizing Data with Power BI.
- Complete Data Science Training with Python for Data Analysis.
- Dataiku Core Designer.
- R Programming A-Z: R for Data Science.
- English Certificate.

LANGUAGES

Spanish: Native | English: Full professional proficiency
