

PEDRO JAVIER GUTIERREZ ARMAS

Principal SQL Database Administrator | SQL Server DBA | T-SQL Performance Tuning
San Jose, Costa Rica | +506 6351-5860 | pj13eros@hotmail.com | linkedin.com/in/pedrogutierrez13

PROFESSIONAL SUMMARY

Principal SQL Server DBA, SQL Developer, and Data Engineer with 15+ years of experience designing, administering, optimizing, and maintaining data platforms for reporting, operational systems, ETL/ELT, data warehousing, and BI. Strong background in Microsoft SQL Server, advanced T-SQL, stored procedures, indexing, query optimization, database maintenance, production troubleshooting, data migrations, and stakeholder-facing delivery. Experienced working in remote Agile environments with autonomy, supporting complex SQL Server and Azure-based data environments, defining database practices, documenting technical processes, and using automation and AI-assisted development tools such as Cursor and PR review bots.

TECHNICAL SKILLS

Area	Tools and Practices
SQL Server Administration	SQL Server, database health management, maintenance routines, production support, migration support, multi-database environments, Azure-based environments
Performance Engineering	T-SQL optimization, stored procedure tuning, indexing strategies, execution plan review, slow-query troubleshooting, bottleneck analysis
Database Development	Stored procedures, functions, views, schema design, relational modeling, data validation, data integrity, SQL-based business logic
Data Engineering and BI	SSIS, SSAS, SSRS, ETL/ELT pipelines, data warehousing, Power BI, Snowflake SQL, dbt, PostgreSQL, MySQL
Automation and Delivery	Python, PowerShell, Git exposure, Agile/Scrum collaboration, documentation, Cursor, AI-assisted PR review bots

PROFESSIONAL EXPERIENCE

Snowflake Developer / Data Engineer | ServiceTitan

September 2024 - Present | Remote / Costa Rica

- Migrated C# reporting logic into Snowflake SQL, improving maintainability of reporting logic and supporting scalable analytics workflows.
- Create and maintain dbt models in silver and gold layers, improving model organization, reuse, and downstream reporting reliability.
- Optimized Snowflake SQL and dbt workloads, reducing data warehouse processing time by 20% during an initial performance improvement phase.
- Created a Kimball-based data warehouse model proof of concept to improve modeling standards, query behavior, and processing performance.
- Support MetricFlow semantic layer development and Snowflake Cortex use cases for AI-enabled analytics, metric consistency, and data documentation.

Technologies: Snowflake, Snowflake SQL, Snowflake Cortex, dbt, MetricFlow, Kimball, SQL, C# logic migration, Cursor, AI-assisted PR review bot

Data Engineer | SMASH Costa Rica

May 2021 - September 2024 | San Jose, Costa Rica

- Designed and implemented ETL applications tailored to client requirements, reducing manual data processing time by up to 40%.
- Built and maintained production data workflows using SQL Server, SSIS, Python, PowerShell, Snowflake, Power BI, and Excel.
- Developed automated exploratory analysis and validation tools with Pandas, NumPy, and Matplotlib to detect anomalies and improve validation accuracy by 30%.
- Prepared, cleaned, transformed, and modeled datasets for business reporting, dashboards, and operational decision-making.

Technologies: SQL Server, SSIS, Power BI, Python, Pandas, NumPy, Matplotlib, PowerShell, Snowflake, Excel

SQL Developer | Intertec International

February 2019 - April 2021 | San Jose, Costa Rica

- Developed and optimized stored procedures, complex SQL queries, and database workflows supporting business logic and analytics workloads.
- Reduced query execution times by up to 50% through T-SQL tuning, indexing strategies, and database performance optimization.
- Consolidated disparate data sources into analytics-ready datasets using optimized ETL processes.
- Improved data accuracy by more than 25% through validation checks and error-handling mechanisms across key workflows.

Technologies: SQL Server, T-SQL, SSIS, Salesforce, MySQL

DBA / SQL Developer | EL Tiempo

September 2020 - November 2020 | Colombia

- Led planning and execution of migration activities for 10 SQL Server databases, coordinating validation, deployment timing, and continuity of operations.
- Worked with cross-functional teams to identify risks, validate migrated data, and preserve database integrity during production changes.
- Supported SQL Server and Azure-based database/reporting environments with SSIS and SSRS components.

Technologies: SQL Server, SSIS, Azure, SSRS

DBA / SQL and BI Consultant | Gold Data Networks

January 2016 - February 2020 | Panama City, Panama

- Built relational databases and table structures from the ground up to support dynamic web applications and reporting workloads.
- Developed custom database objects and stored procedures to improve application performance and support scalable backend processes.
- Designed end-to-end data solutions integrated with existing infrastructure, BI needs, and operational reporting.

Technologies: SQL Server, SSIS, SSRS, PostgreSQL, Power BI, Excel

Data Warehouse DBA | BAC Credomatic

November 2017 - January 2019 | San Jose, Costa Rica

- Developed and maintained ETL pipelines to load data from multiple sources into the enterprise data warehouse.
- Defined and optimized table, index, and view structures for high-performance analytical workloads.
- Supported reporting and analysis needs by identifying trends and patterns in large datasets for business decision-making.

Technologies: SQL Server, SSIS, SSAS, Power BI, SSRS, Azure

ADDITIONAL SQL SERVER DBA AND DATABASE EXPERIENCE

- Bosal, DBA and BI Consultant: designed the first stage of the main data warehouse, generated senior-management reports, and shared database improvement practices with development teams. Technologies: SQL Server, SSIS, Azure, MySQL, Power BI.
- Xetux Solutions, Database Manager: defined database management policies and improved performance and data security across business areas. Technologies: SQL Server, SSIS, SSRS, Azure.
- ACH Cloud Services, SQL and BI Consultant: administered and developed company databases, created billing dashboards, and documented the data environment. Technologies: SQL Server, SSIS, SSRS, Azure.
- EducaTablet, Microsoft SQL Server DBA: administered and developed company databases, improved response times for database processes, and trained development teams on database programming practices.
- VIGEOSOFT, Microsoft SQL Server DBA: modeled, designed, configured, and programmed OLTP databases for business applications, including data dictionary practices and stakeholder coordination.
- Optica Caroni C.A., Developer Analyst: implemented production workflow and reporting projects using SQL Server, SSIS, SSRS, .NET, and VB6.

EDUCATION AND CERTIFICATIONS

- Systems Analyst, Informatics - IUT Dr. Federico Rivero Palacio (2000 - 2004)
- English Certificate - Universidad Central de Venezuela / Microsoft (2013 - 2015)
- Analyzing and Visualizing Data with Power BI; Complete Data Science Training with Python for Data Analysis; R Programming A-Z; Dataiku Core Designer; SQL Admin Part 1

LANGUAGES
