

PEDRO JAVIER GUTIERREZ ARMAS

Reporting & ETL Developer | SQL Server, Data Governance, Power BI, Data Quality

San Jose, Costa Rica | +506 6351-5860 | pj13eros@hotmail.com | linkedin.com/in/pedrogutierrez13

PROFESSIONAL SUMMARY

Data Engineer, Reporting Developer, and SQL Server specialist with 15+ years of experience designing, building, optimizing, and maintaining ETL/ELT pipelines, reporting datasets, data warehouse solutions, BI assets, and database workflows. Strong hands-on experience with SQL Server, T-SQL, SSIS, SSAS, SSRS, Power BI, Snowflake, dbt, Python, PowerShell, Azure-based environments, PostgreSQL, MySQL, Salesforce integrations, validation checks, error handling, anomaly detection, data dictionaries, process documentation, and data security initiatives. Experienced transforming complex operational data into reliable, governed, analytics-ready assets for reporting, compliance-style analysis, and decision-making.

TECHNICAL SKILLS

ETL & Data Engineering: ETL/ELT, data pipelines, SSIS, dbt, Snowflake, SQL Server, Python, PowerShell, data transformation, data warehousing, data modeling.

SQL & Databases: SQL Server, T-SQL, stored procedures, complex queries, indexing, query optimization, PostgreSQL, MySQL, Snowflake SQL.

Reporting & Analytics: Power BI, SSRS, SSAS, Excel, reporting datasets, dashboards, scheduled reporting support, operational analytics, KPI-ready datasets.

Data Quality & Governance Support: Validation checks, error handling, anomaly detection, data dictionaries, process documentation, data integrity, data security initiatives.

Sources & Platforms: Salesforce integrations, Azure-based environments, APIs and application logic migration to SQL, flat-file and spreadsheet-driven workflows.

PROFESSIONAL EXPERIENCE

ServiceTitan - Snowflake Developer / Data Engineer | Sep 2024 - Present | Remote / Costa Rica

- Migrated reporting and business logic from C# processes into Snowflake SQL, improving maintainability, traceability, and scalability of reporting workflows.
- Created and maintained dbt silver and gold layer models to organize reusable datasets and improve downstream reporting reliability.
- Optimized Snowflake SQL and dbt processing, reducing data warehouse processing time by approximately 20% in an initial optimization phase.
- Supported MetricFlow work by helping organize analytical definitions across datasets, improving consistency and usability of reporting metrics.

SMASH Costa Rica - Data Engineer | May 2021 - Sep 2024

- Designed and maintained customized ETL workflows using SQL Server, SSIS, Python, PowerShell, Snowflake, Power BI, and Excel, reducing manual processing time by up to 40%.
- Prepared, cleansed, transformed, and modeled operational datasets for business reporting, dashboards, and decision-making.
- Developed automated exploratory data analysis, validation checks, and anomaly detection using Pandas, NumPy, and Matplotlib, improving validation accuracy by 30%.
- Translated stakeholder reporting requirements into structured datasets, repeatable transformations, and Power BI-ready outputs.

Intertec International - SQL Developer | Feb 2019 - Apr 2021

- Developed and optimized SQL Server stored procedures, complex SQL queries, and database workflows supporting business logic and analytics needs.
- Consolidated multiple data sources, including SQL Server, SSIS, Salesforce, and MySQL, into analytics-ready datasets through optimized ETL processes.
- Improved data accuracy by more than 25% through validation checks and error-handling mechanisms across key workflows.
- Reduced query execution times by up to 50% through SQL optimization, indexing strategies, and performance tuning.

EL Tiempo - DBA / SQL Developer | Sep 2020 - Nov 2020

- Supported data migration projects for 10 databases, coordinating validation, data integrity checks, risk identification, and continuity activities.
- Worked with SQL Server, SSIS, Azure, and SSRS to preserve reporting availability and maintain reliable data movement during deployment activities.

Gold Data Networks - DBA / SQL & BI Consultant | Jan 2016 - Feb 2020

- Built relational databases, table structures, custom database objects, and stored procedures for scalable backend and reporting workloads.
- Designed and implemented end-to-end data solutions integrated with infrastructure, BI, and reporting needs.
- Delivered SQL Server, SSIS, SSRS, PostgreSQL, Power BI, and Excel solutions for business reporting and operational analysis.

BAC Credomatic - Data Warehouse DBA | Nov 2017 - Jan 2019

- Developed and maintained ETL pipelines to extract, transform, and load data from multiple source systems into the data warehouse.
- Defined and optimized table, index, and view structures for high-performance analytical workloads.
- Supported SSAS, Power BI, SSRS, and Azure-based reporting environments for large-scale data-driven decision-making.

ADDITIONAL EXPERIENCE

Bosal, Xetux, ACH, EducaTablet, VIGEOSOFT, Optica Caroni - Database / BI / SQL Roles | *Earlier Experience*

- Administered and developed databases, reports, dashboards, and operational workflows using SQL Server, SSIS, SSRS, Azure, MySQL, .NET, VB6, and related Microsoft technologies.
- Defined database management policies, improved performance and data security across business areas, and documented data environments with data dictionary practices.
- Created dashboards and reports for customer billing, sales, management, production, and business control processes.

EDUCATION & CERTIFICATIONS

- Systems Analyst, Informatics - IUT Dr. Federico Rivero Palacio.
- SQL Admin Part 1.
- Analyzing and Visualizing Data with Power BI.
- Complete Data Science Training with Python for Data Analysis.
- R Programming A-Z: R for Data Science.
- Dataiku Core Designer.
- English Certificate.

LANGUAGES

Spanish: Native | English: Full professional proficiency
