

PEDRO JAVIER GUTIERREZ ARMAS

Senior Analytics Engineer | Snowflake, dbt, SQL, Power BI & Data Modeling

San Jose, Costa Rica | +506 6351-5860 | pj13eros@hotmail.com | linkedin.com/in/pedrogutierrez13

PROFESSIONAL SUMMARY

Senior Analytics Engineer, Snowflake Developer, and Data Engineer with 15+ years of experience designing, building, optimizing, and maintaining analytics infrastructure, cloud data warehouse models, ETL/ELT pipelines, BI/reporting datasets, and decision-support solutions. Hands-on experience with Snowflake SQL, dbt models, silver and gold data layers, MetricFlow support, Kimball practices, SQL performance tuning, Power BI, SQL Server, SSIS, SSAS, SSRS, Python, PowerShell, PostgreSQL, MySQL, Azure-based environments, validation checks, error handling, anomaly detection, documentation, and stakeholder collaboration. Experienced translating business requirements into scalable models, metrics, dashboards, and reliable analytics-ready assets for operational and strategic decision-making.

TECHNICAL SKILLS

Analytics Engineering: Snowflake SQL, dbt models, silver and gold layers, MetricFlow support, analytical definitions, reusable data models.

Data Modeling & Warehousing: Data warehousing, Kimball practices, dimensional modeling, DWH modeling, data marts, reporting datasets, analytics-ready assets.

SQL & Performance: Advanced SQL, query optimization, indexing, performance tuning, stored procedures, complex queries, SQL Server, PostgreSQL, MySQL.

BI & Self-Service Analytics: Power BI, SSRS, SSAS, Excel, dashboard datasets, operational reporting, KPI-ready models, stakeholder-facing insights.

Quality, Automation & Delivery: Python, Pandas, NumPy, Matplotlib, PowerShell, validation checks, error handling, anomaly detection, documentation, requirements translation.

PROFESSIONAL EXPERIENCE

ServiceTitan - Snowflake Developer / Data Engineer | Sep 2024 - Present | Remote / Costa Rica

- Migrated reporting and business logic from C# processes into Snowflake SQL to support scalable reporting and analytics workflows.
- Create and maintain dbt models within silver and gold data layers, improving model organization, reusability, and downstream reporting reliability.
- Optimize Snowflake SQL and dbt workloads, reducing data warehouse processing time by approximately 20% in an initial optimization phase.
- Created a proof of concept for a new data warehouse model using Kimball methodology and best practices to define modeling standards and improve query and processing performance.
- Support dbt MetricFlow work by helping create and organize metrics across datasets, improving consistency and usability of analytical definitions.

SMASH Costa Rica - Data Engineer | May 2021 - Sep 2024

- Designed and implemented customized ETL applications tailored to client requirements, reducing manual processing time by up to 40%.
- Built and maintained data workflows using SQL Server, SSIS, Python, PowerShell, Snowflake, Power BI, and Excel.
- Prepared, cleaned, transformed, and modeled datasets for business reporting, Power BI dashboards, and operational decision-making.
- Developed automated exploratory data analysis and validation tools with Pandas, NumPy, and Matplotlib to detect anomalies and improve validation accuracy by 30%.

Intertec International - SQL Developer | Feb 2019 - Apr 2021

- Developed and optimized stored procedures, SQL queries, and database workflows supporting complex business logic and analytics needs.
- Consolidated multiple disparate data sources into analytics-ready datasets using optimized ETL processes.
- Improved data accuracy by more than 25% through validation checks and error-handling mechanisms across key workflows.
- Reduced query execution times by up to 50% through SQL optimization, indexing strategies, and performance tuning.

EL Tiempo - DBA / SQL Developer | Sep 2020 - Nov 2020

- Supported migration projects for 10 databases, coordinating validation, data integrity checks, risk identification, and continuity activities.
- Worked with SQL Server, SSIS, Azure, and SSRS to preserve reporting availability during multi-platform migration and deployment activities.

Gold Data Networks - DBA / SQL & BI Consultant | Jan 2016 - Feb 2020

- Built relational databases, table structures, custom database objects, and stored procedures from scratch for scalable backend and reporting workloads.
- Designed and implemented end-to-end data solutions integrated with infrastructure and BI/reporting needs.
- Delivered SQL Server, SSIS, SSRS, PostgreSQL, Power BI, and Excel solutions for operational reporting and business analysis.

BAC Credomatic - Data Warehouse DBA | Nov 2017 - Jan 2019

- Developed and maintained ETL pipelines to extract, transform, and load data from multiple source systems into a data warehouse.
- Defined and optimized table, index, and view structures for high-performance analytical workloads.
- Supported SSAS, Power BI, SSRS, and Azure-based reporting environments for large-scale analytics and decision support.

ADDITIONAL EXPERIENCE

Bosal, Xetux, ACH, EducaTablet, VIGEOSOFT, Optica Caroni - Database / BI / SQL Roles | *Earlier Experience*

- Designed data warehouse stages, centralized reporting datasets, dashboards, reports, and business control processes using SQL Server, SSIS, SSRS, Azure, MySQL, Power BI, .NET, and VB6.
- Created a data lake to consolidate sales data, defined database management policies, improved performance and data security, and documented data environments with data dictionary practices.
- Trained development teams on database programming practices and supported BI/reporting delivery for management and operational teams.

EDUCATION & CERTIFICATIONS

- Systems Analyst, Informatics - IUT Dr. Federico Rivero Palacio.
- Analyzing and Visualizing Data with Power BI.
- Complete Data Science Training with Python for Data Analysis.
- Dataiku Core Designer.
- SQL Admin Part 1.
- R Programming A-Z: R for Data Science.
- English Certificate.
