

PEDRO JAVIER GUTIERREZ ARMAS

SQL Server DBA | SQL Developer | Data Engineer

San Jose, Costa Rica | +506 6351-5860 | pj13eros@hotmail.com | linkedin.com/in/pedrogutierrez13

PROFESSIONAL SUMMARY

SQL Server DBA, SQL Developer, and Data Engineer with 15+ years of experience supporting production database environments, SQL development, BI platforms, ETL processes, reporting systems, and data warehouse solutions. Strong background in SQL Server administration, T-SQL development, stored procedures, query optimization, database migrations, Azure-based database environments, backup and recovery practices, operational documentation, and cross-functional support for development, analytics, and business teams. Comfortable working remotely, independently, and in English-speaking environments.

TECHNICAL SKILLS

Databases: Microsoft SQL Server, Azure SQL Database, Azure SQL Managed Instance, PostgreSQL, MySQL, Snowflake.

SQL / Development: T-SQL, stored procedures, functions, views, indexing, query tuning, execution plan analysis, data validation.

Data & BI: SSIS, SSRS, SSAS, Power BI, Excel, dbt, MetricFlow, data warehousing, ETL/ELT, data modeling.

Cloud / Automation: Azure, PowerShell, Python, Git, CI/CD exposure, Snowflake Cortex, AI-assisted development tools.

PROFESSIONAL EXPERIENCE

ServiceTitan - Snowflake Developer / Data Engineer | September 2024 - Present | Remote / Costa Rica

- Migrates reporting logic from C# into Snowflake SQL, improving maintainability and supporting scalable analytical reporting.
- Creates and maintains dbt models across silver and gold layers, with attention to reliability, performance, and downstream consumption.
- Optimizes Snowflake SQL and dbt workloads, reducing Data Warehouse processing time by approximately 20% in an initial optimization phase.
- Works with MetricFlow semantic layer initiatives and Snowflake Cortex to support consistent metrics and modern data workflows.

SMASH Costa Rica - Data Engineer | May 2021 - September 2024 | San Jose, Costa Rica

- Built and maintained ETL workflows and reporting datasets using SQL Server, SSIS, Python, PowerShell, Snowflake, Power BI, and Excel.
- Designed customized ETL applications for client data processes, reducing manual processing time by up to 40%.
- Developed data validation and exploratory analysis tools with Pandas, NumPy, and Matplotlib, improving validation accuracy by 30%.
- Supported production data workflows through troubleshooting, documentation, data cleansing, transformation, and stakeholder coordination.

Intertec International - SQL Developer | February 2019 - April 2021 | San Jose, Costa Rica

- Developed and maintained T-SQL queries, stored procedures, and database workflows supporting business applications and analytics.
- Reviewed query logic, indexes, and execution behavior to reduce execution times by up to 50%.
- Improved data accuracy by more than 25% through validation checks, error-handling logic, and repeatable SQL processes.
- Supported ETL consolidation from multiple sources, including Salesforce and MySQL, into analytics-ready datasets.

EL Tiempo - DBA / SQL Developer | September 2020 - November 2020 | Colombia

- Supported SQL Server database migration and upgrade activities for 10 databases, including assessment, validation, and cutover support.
- Worked with SQL Server and Azure SQL environments, helping with configuration, maintenance, monitoring, and operational continuity.
- Prepared backup and recovery procedures, documented database configurations, and supported restore-readiness planning.
- Validated data integrity and coordinated with technical teams to reduce operational risk during migration activities.

Gold Data Networks - DBA / SQL & BI Consultant | January 2016 - February 2020 | Panama City, Panama

- Administered SQL Server environments supporting operational systems, reporting workloads, and BI solutions.
- Created relational database structures, custom database objects, stored procedures, and reporting components.
- Supported recurring database maintenance, patch coordination, backup routines, recovery procedures, and configuration documentation.
- Tuned SQL queries, indexes, and database objects to improve application and reporting performance.

BAC Credomatic - Data Warehouse DBA | November 2017 - January 2019 | San Jose, Costa Rica

- Maintained SQL Server Data Warehouse environments and ETL processes used for operational and analytical reporting.
- Optimized tables, indexes, and views to improve response times and support high-volume analytical workloads.
- Worked with SQL Server, SSIS, SSAS, SSRS, Power BI, and Azure-based reporting environments.
- Documented data flows, database structures, and support practices for stable production reporting.

ADDITIONAL DBA AND DATABASE EXPERIENCE

Xetux Solutions - Database Manager | August 2016 - October 2017 | Caracas, Venezuela

- Defined database management policies and improved database performance, data security, and reporting availability.
- Created a data lake to consolidate sales data and support centralized reporting and analysis.

ACH Cloud Services - SQL and BI Consultant | August 2015 - August 2016 | Caracas, Venezuela

- Administered and developed company databases supporting operational and reporting workflows.
- Created dashboards and reports for customer billing management and documented the company's data environment.

EducaTablet - Microsoft SQL Server DBA | February 2015 - August 2015 | Caracas, Venezuela

- Administered and developed company databases and improved response times for database processes.
- Trained development teams on database programming good practices.

VIGEOSOFT - Microsoft SQL Server DBA | August 2014 - January 2015 | Caracas, Venezuela

- Modeled, designed, configured, and programmed OLTP databases for business applications.
- Documented process and structure changes through data dictionary practices and stakeholder coordination.

Optica Caroni C.A. - Developer Analyst | September 2005 - May 2014 | Caracas, Venezuela

- Adjusted application and database processes to improve production workflows and created management reports and dashboards.
- Implemented production-related workflow projects using SQL Server, SSIS, SSRS, .NET, and VB6.

EDUCATION, CERTIFICATIONS & LANGUAGES

Systems Analyst, Informatics - IUT Dr. Federico Rivero Palacio. Certifications and training: English Certificate - Universidad Central de Venezuela / Microsoft; SQL Admin Part 1; Analyzing and Visualizing Data with Power BI; Complete Data Science Training with Python for Data Analysis; R Programming A-Z; Dataiku Core Designer. Languages: Spanish native; English full professional.
