

PEDRO JAVIER GUTIERREZ ARMAS

Data Engineer | Snowflake Developer | SQL Server, dbt, Snowflake Cortex, AI Tools, Power BI, ETL & Data Warehousing

San Jose, Costa Rica | +506 6351-5860 | pj13eros@hotmail.com | linkedin.com/in/pedrogutierrez13

PROFESSIONAL SUMMARY

Data Engineer, Snowflake Developer, and SQL Server specialist with 15+ years of experience designing, building, optimizing, and maintaining data solutions across ETL/ELT, data warehousing, BI, reporting, database development, data quality, and AI-assisted analytics workflows. Hands-on experience with Snowflake SQL, dbt models, Snowflake Cortex, MetricFlow semantic layer work, AI-assisted development tools including Cursor and PR review bots, SQL Server, SSIS, SSAS, SSRS, Power BI, Python, PowerShell, Azure, PostgreSQL, MySQL, Salesforce integrations, and Excel. Experienced migrating reporting/business logic into SQL, building silver and gold layer models, optimizing warehouse processing performance, creating reusable data models, and transforming complex datasets into reliable analytics-ready assets for reporting and decision-making.

CORE STRENGTHS

Snowflake & dbt	SQL / DWH / ETL	BI & Data Quality
Snowflake SQL, dbt models, silver/gold layers, metric flow support, DWH modeling POC	SQL Server, T-SQL, SSIS, ETL/ELT, stored procedures, performance tuning, data migrations	Power BI, SSRS, SSAS, Excel, validation checks, anomaly detection, reporting datasets
Reduced data warehouse processing time by 20% in an initial performance optimization phase	Reduced query execution times by up to 50% and manual processing by up to 40%	Improved data accuracy by 25-30% through validation and automated analysis workflows

TECHNICAL SKILLS

- Snowflake / dbt / AI: Snowflake SQL, dbt models, silver and gold layers, MetricFlow semantic layer support, Snowflake Cortex, DWH modeling, Kimball practices
- SQL & Databases: SQL Server, T-SQL, stored procedures, complex queries, indexing, query optimization, PostgreSQL, MySQL
- Data Engineering: ETL/ELT, data pipelines, data transformation, data warehousing, data modeling, performance optimization
- Microsoft BI Stack: SSIS, SSAS, SSRS, Power BI, Excel, Azure-based environments
- Programming, Automation & AI Tools: Python, Pandas, NumPy, Matplotlib, PowerShell, Cursor, AI-assisted PR review bots, C# code migration to SQL logic
- Data Quality & Documentation: validation checks, error handling, anomaly detection, data dictionaries, process documentation
- Business Delivery: stakeholder collaboration, requirements translation, reporting datasets, semantic layer support, actionable insights

PROFESSIONAL EXPERIENCE

Snowflake Developer / Data Engineer | ServiceTitan

September 2024 - Present | Remote / Costa Rica

- Started as a report developer, taking C# reporting logic and migrating it into Snowflake SQL to support scalable reporting and analytics workflows.
- Create and maintain dbt models within silver and gold data layers, improving model organization, reusability, and downstream reporting reliability.
- Work on Snowflake SQL and dbt performance tasks to improve data warehouse processing efficiency, reducing processing time by 20% in an initial optimization phase.
- Created a proof of concept for a new data warehouse model using Kimball methodology and best practices to define modeling standards and improve query and processing performance.
- Support the development of the MetricFlow semantic layer, using Snowflake Cortex over the last 6 months to support AI-enabled analytics workflows, metric organization, and consistency of analytical definitions.

Technologies: Snowflake, Snowflake SQL, Snowflake Cortex, dbt, MetricFlow, semantic layer, DWH, Kimball, SQL, C# logic migration, Cursor, AI-assisted PR review bot

Data Engineer | Health Catalyst

May 2021 - September 2024 | San Jose, Costa Rica

- Designed and implemented customized ETL applications tailored to client requirements, reducing manual processing time by up to 40%.
- Built and maintained data workflows using SQL Server, SSIS, Python, PowerShell, Snowflake, Power BI, and Excel.
- Developed automated exploratory data analysis and validation tools using Pandas, NumPy, and Matplotlib to detect anomalies, improve data validation accuracy by 30%, and accelerate reporting workflows.

- Prepared, cleaned, transformed, and modeled datasets for business reporting, Power BI dashboards, and operational decision-making.

Technologies: SQL Server, SSIS, Power BI, Python, Pandas, NumPy, Matplotlib, PowerShell, Snowflake, Excel

SQL Developer | Intertec International

February 2019 - April 2021 | San Jose, Costa Rica

- Developed and optimized stored procedures, SQL queries, and database workflows supporting complex business logic and analytics needs.
- Consolidated multiple disparate data sources into analytics-ready datasets using optimized ETL processes.
- Improved data accuracy by over 25% through validation checks and error-handling mechanisms across key workflows.
- Reduced query execution times by up to 50% through SQL optimization, indexing strategies, and performance tuning.

Technologies: SQL Server, SSIS, Salesforce, MySQL

DBA / SQL Developer | EL Tiempo

September 2020 - November 2020 | Colombia

- Led planning and execution of data migration projects for 10 databases, delivering all phases on time and within scope.
- Worked with cross-functional teams to identify migration risks, validate data, and maintain data integrity.
- Supported multi-platform migrations and continuity of operations during deployment activities.

Technologies: SQL Server, SSIS, Azure, SSRS

DBA / SQL & BI Consultant | Gold Data Networks

January 2016 - February 2020 | Panama City, Panama

- Built relational databases and table structures from the ground up to support dynamic web applications and reporting workloads.
- Developed custom database objects and stored procedures to improve application performance and support scalable backend processes.
- Designed and implemented end-to-end data solutions integrated with existing infrastructure and BI/reporting needs.

Technologies: SQL Server, SSIS, SSRS, PostgreSQL, Power BI, Excel

Data Warehouse DBA | BAC Credomatic

November 2017 - January 2019 | San Jose, Costa Rica

- Developed and maintained ETL pipelines to extract, transform, and load data from multiple sources into the data warehouse.
- Defined and optimized table, index, and view structures for high-performance analytical workloads.
- Improved operational efficiency by identifying trends and hidden patterns in large datasets for data-driven decision-making.

Technologies: SQL Server, SSIS, SSAS, Power BI, SSRS, Azure

ADDITIONAL EXPERIENCE

DBA and BI Consultant | Bosal

March 2017 - March 2018 | Lummen, Belgium

- Designed the first stage of the company's main data warehouse and generated reports and presentations for senior management.
- Shared database improvement practices with development teams and supported BI/reporting delivery.

Technologies: SQL Server, SSIS, Azure, MySQL, Power BI

Database Manager | Xetux Solutions

August 2016 - October 2017 | Caracas, Venezuela

- Defined database management policies and improved performance and data security across business areas.
- Created a data lake to consolidate sales data and support centralized reporting and analysis.

Technologies: SQL Server, SSIS, SSRS, Azure

SQL and BI Consultant | ACH Cloud Services

August 2015 - August 2016 | Caracas, Venezuela

- Administered and developed company databases supporting operational and reporting workflows.
- Created dashboards and reports for customer billing management and documented the company's data environment.

Technologies: SQL Server, SSIS, SSRS, Azure

Microsoft SQL Server DBA | EducaTablet

February 2015 - August 2015 | Caracas, Venezuela

- Administered and developed company databases and improved response times for database processes.
- Trained development teams on database programming good practices.

Technologies: SQL Server, SSIS, SSRS, Azure

Microsoft SQL Server DBA | VIGEOSOFT

August 2014 - January 2015 | Caracas, Venezuela

- Modeled, designed, configured, and programmed OLTP databases for business applications.
- Documented process and structure changes through data dictionary practices and stakeholder coordination.

Technologies: SQL Server, SSIS, SSRS

Developer Analyst | Optica Caroni C.A.

September 2005 - May 2014 | Caracas, Venezuela

- Implemented six projects for different areas of the lens laboratory, improving production-related workflows.
- Adjusted application and database processes to maximize production and created management reports/dashboards.

Technologies: SQL Server, SSIS, SSRS, .NET, VB6

EDUCATION & CERTIFICATIONS

- Systems Analyst, Informatics - IUT Dr. Federico Rivero Palacio (2000 - 2004)
- English Certificate - Universidad Central de Venezuela / Microsoft (2013 - 2015)
- Analyzing and Visualizing Data with Power BI
- Complete Data Science Training with Python for Data Analysis
- R Programming A-Z: R for Data Science
- Dataiku Core Designer
- SQL Admin Part 1

LANGUAGES

Spanish: Native | English: Full Professional
